## ABOUT US

Yarwood Memorial Products is a family-owned business, led by mother-and-daughter team Cheryl and Hannah Yarwood, with the valued support of Megan Fey.

Since 2015, they have been dedicated to designing and sourcing thoughtful memorial urns and keepsakes from around the world. Their focus is on helping families honour loved ones with dignity and care, while remaining ethically responsible in every aspect of the business. In October 2023, they rebranded with a fresh new look and company name to reflect their continued growth and commitment.

As part of their environmental promise, Yarwood Memorial Products partners with Tree Nation to support global reforestation. For every product ordered through their online store at [www.yarwoodmemorials.co.uk](http://www.yarwoodmemorials.co.uk), one tree is planted.

## LUXURY GLASS URNS

They are bright, colourful, and tactile, making them a beautiful alternative to a traditional casket or urn. Either rest the ornate lid on top, or seal with silicone or glue.

## CHILD BRASS URNS

Crafted in brass and engraved by hand, our child brass Honesty urns have been created in tranquil colourways. They offer a traditional option for holding a small set of ashes, or a larger portion of an adult's ashes. The new Peaceful urn is ornately detailed and is finished in pretty pastels colours. Every child urn arrives in a grey velveteen presentation box.

## TIERRA ECO URNS

The Rio, Pura, Bola and Arena Urns are made of air-dried clay. Simply seal with water or glue to keep the ashes safe inside. They can be stored inside the home without degrading for years to come. Once buried, they take around four weeks to degrade, or 20 minutes to dissolve in water.

The Hielo and Fuego Urns are made of clay and then fired and glazed so will take approximately 10 years to biodegrade once buried. Glue provided to seal the lid.

Urns have water-soluble/biodegradable bags inside.

## LIMBO ECO URNS

The Riviera Urn can be decorated with messages before it is committed to the sea. It floats for few minutes before sinking and completely dissolving.

**RIVIERA**  
25cm high 15cm diameter 4litre

The Olea urn is perfect for ground burial, planting new tree life (depending on soil type) or nurturing an existing tree.

The Samsara urn is also suitable for ground burial, fresh water and ocean dispersal, dissolving quickly.

The Nu urns are made of pure salt and are designed for returning ashes to the ocean.

Urn has water-soluble/biodegradable bags inside.
